Hager Ayman

Cybersecurity Graduate | Huawei ICT Competition Gold Medalist | HCIA-Security

Cairo, Egypt | hagerayman382@gmail.com | LinkedIn | GitHub

Professional Summary

Cybersecurity graduate whose technical journey has been built around Huawei's ICT ecosystem: HCIA-Security certified, Gold Medalist in the Huawei ICT Competition (Cybersecurity Track, 5,000+ global competitors), and Technical Co-Head of the AOU Huawei Club. Built an AI-enhanced IDS/IPS with 99.9%+ detection accuracy and a live Prometheus/Grafana monitoring dashboard. Hold CEH, CompTIA Security+, Network+, Cisco CCNA and ISC² CC. Seeking to start my career at Huawei in security operations, penetration testing or governance, risk and compliance, and to grow with the company that shaped my training.

Why Huawei

Huawei's ICT Academy and competition program is where I first proved my skills on a global stage. I want to give back by building secure networks and solutions on the platforms I trained on, and I am committed to learning Huawei's products, standards and ways of working quickly.

Huawei Journey

- **Huawei ICT Competition, Gold Medal (Cybersecurity Track):** competed among 5,000+ participants worldwide.
- **HCIA-Security:** Huawei Certified ICT Associate in security.
- **Technical Co-Head, AOU Huawei Club:** lead technical activities and support students preparing for Huawei certifications and competitions.

Education

B.Sc. in Cybersecurity, Arab Open University (AOU) Egypt, British-validated degree, graduated 2025/2026, GPA 3.0

Graduation Project

AI-Enhanced IDS/IPS System

- Designed and built an intrusion detection and prevention system using machine learning.
- Achieved 99.9%+ detection accuracy.
- Built a Prometheus and Grafana dashboard for real-time monitoring and visibility.

Certifications

- Huawei HCIA-Security
- Certified Ethical Hacker (CEH)
- CompTIA Security+
- CompTIA Network+
- Cisco CCNA
- ISC² Certified in Cybersecurity (CC)

Leadership and Experience

- **Technical Co-Head, AOU Huawei Club**
- **Media Co-Head, AOU Cybersecurity Club**
- **Graphic Designer, about 5 years of experience:** visual communication, branding and design for clients and student activities. This brings clear reporting, presentation and documentation skills to technical work.

Technical Skills

- **Security:** intrusion detection and prevention, threat detection, vulnerability assessment, penetration testing fundamentals, security monitoring
- **Networking:** TCP/IP, routing and switching, firewalls, VPNs, network security (Huawei and Cisco)
- **Monitoring and tools:** Prometheus, Grafana, AI/ML for security analytics
- **Target roles:** SOC Analyst, Penetration Tester, GRC
